For Immediate Release

Limited Production Cragar S/S for A-Body Muscle Cars (A Newstalgia Wheel Exclusive)

The Cragar S/S Super Sport has long been THE perfect upgrade for Muscle Cars of the 60's & 70's. Newstalgia Wheel is proud to announce that it has teamed up with Carlisle Tire & Wheel to bring back the Cragar S/S Super Sport for the A-Body Muscle Cars of the 60's and 70's in a very limited production run.

The 5x4 bolt pattern was widely used on Dart, Demon, Duster, Scamp, Valiant and Barracuda's in the 60's & 70's. The Cragar S/S Super Sport dominated the wheel of choice because of its classic styling and unique fitment for A-Body Muscle. Bringing back this wheel will allow the enthusiast to keep their car completely stock and save money from converting axles and brakes to larger bolt pattern. This will save you money and brighten up your Mopar with high luster chrome!

The limited production will include the following sizes 14x6, 14x7, 14x8, 15x6, 15x7, & 15x8. We are expecting production to be completed by spring 2007. Since these wheels will be in high demand because of the limited production run, we are taking orders in advance of the completion on a first come first serve basis. Because of its very limited production run, the small bolt pattern Cragar S/S Super Sport will not be available for purchase through another Cragar dealer. If you would like to reserve a set contact Newstalgia Wheel today at 1-800-281-2819. your credit card will not be charged until production is complete and ready to ship to you.
